Engineer Advisory

Design Systems & UI

2 achievements

Connect the parts of your system

The work collected under “Design Systems & UI” shows one part of a working system. We can help connect that part to the rest of your operation. Interfaces that load quickly, work on a phone and behave the same in every browser your customers happen to use.

Presented 200 UI/UX improvements

Presented 200 UI/UX improvements for the GIS map application, boosting revenue by 10x through enhanced software features.

Designed the product's UI and UX end to end

Designed the product's UI and UX end to end — directory grids, dual card/table views, live requirement validators and breadcrumb navigation.

Focus the engineering effort

Describe the workflow, the existing interfaces and the users who need the change. We can define a testable delivery and a handover that lets your team maintain it.
